PRICE FIVE CENTS

BUILDING COLLAPSES; 18 KILLED, 15 HURT

**Walls Adjoin Structure Topple Over
on Department Store Filled With
Women and Children at Sale**

MCKINNEY, Tex., Jan. 23. Eight persons were killed and 15 hurt here late today when walls of a building occupied by a failing implement firm fell, and crashed into a department store, causing that building to collapse. Fire broke out in the ruins and it was believed, until late tonight, that the death list was much larger.

The known dead are:
ROSA WELSH.
MISS KATIE MITTIGAN.
MISS BESSIE WADE.
RUSSETT HEIGHT, aged 4.
N. R. PRESLEY, clerk.
MRS. MARY STIFF, clerk.
MISS EVA STAFF, clerk.
LESLIE BUSH, Allen, Tex.

The building next to the Odd Fellows building, two stories of which were used by the Cheever company, a department store, was occupied by an implement company. The walls of the implement company gave way first.

Sale on in Store.

A sale was on in the department store. Women and children thronged its counters.

At the first cracking of timbers, desks and customers broke for the streets. Pressed outward by the weight of the heavy stock, the walls of the implement store sagged, sagged and burst through into the department store and in an instant hundreds of tons of merchandise and wrecked and shattered building material formed a heap of debris in the department store.

After a moment of stunned activity, rescuers attacked the ruins. Scarcely had they mounted the heap when flames burst through it. From all over the city came workers and they were formed into relays by Mayor Finch.

Begged for Gun to Kill Self.
The fire was extinguished in an hour and the debris was cleared away. A clerk, who was one of those in the implement store, before he died, begged for a gun to kill himself.

Then Presley begged. "Kill me," he said. "I don't want to live. I'm burning." His right foot is burning off. A few minutes later when the rescuers reached him, Presley was dead. His right foot was burned to a crisp. As darkness fell, electric lights were strung across the ruins. Assistance came quickly from nearby towns and from all parts of the state came offers of aid.

People Panic Stricken.

Cracking of timbers and sagging of the building quickly were followed by the collapse of the walls. The falling of the walls increased the falling of a two-story building adjoining the department store.

Rescue work was impeded by the lack of mechanical facilities and practically the entire male population of McKinney joined in fighting the fire and searching the smoldering ruins. Two persons reached by the rescuers lived only a few minutes after they were taken from the ruins.

One of the victims, N. R. Presley, directed the firemen how to release him.

RAILROAD OFFICIALS WILL INVESTIGATE PLAN FOR PROPOSED UNION DEPOT HERE

Result of Conference Yesterday Not Regarded as Favorable to Terminal Project

The organization of a committee by representatives of all the railroads entering Springs for the purpose of investigating the feasibility of a plan for a union depot here, was the result of the conference of railroad men with the members of the commission and representatives of the Chamber of Commerce yesterday.

This committee, of which W. R. Perry, chief engineer of the Rock Island line, was named chairman, will gather data on the project of a union terminal building here from the standpoint of practical railroad men and report within a few weeks to the local depot commission whether, in their opinion, a union depot can be built there without injury to any road, and at a cost that would not be prohibitive.

Upon the report of this committee the future of the union depot project seems to be in doubt. It is a member of the commission, who said that the question was not a question of the question, and it was found impossible to effect a union depot, to drop the matter at once.

The organization of the railroad committee came after a spirited debate on the subject of the appointment of a

MEN OF AFFAIRS CAN GET PASSES

COLORADO RAILROADS ON THE CARPET

Rigid Examination Is Begun by Interstate Commerce Commissioner

DENVER, Jan. 23.—That interstate railroad passes are still being issued by the Rock Island lines in Colorado, and that passes generally are issued by the Colorado roads to influence the routing of freight shipments, was brought out at today's hearing before Interstate Commerce Commissioner Harlan. Commissioner Harlan told Commissioner Harlan that he knows of an annual interstate pass over the Rock Island which has been issued to a Colorado Springs minister. Martin qualified his statement, as if from an afterthought, by saying that the pass was not issued by him, but from some other department of the Rock Island.

He admitted that local passes were issued by his road in order to induce shipments of freight over the line, inasmuch as granting of passes had a tendency to establish a kindly feeling between shipper and the road. He declared, however, that the Rock Island issued fewer passes than other Colorado roads, giving 32 as the total of September's quota of passes.

Have No Standard Rule.

Of this number, 31 were issued for transportation to Burlington, the town on the Kansas border which is reached by the Rock Island. Martin stated that four passes to Burlington went for Armour & Co., within one month. Commissioner Harlan tried to establish by testimony what he called a standard or basis upon which the roads acted in giving transportation. Fred Wild, Jr., general freight agent of the Denver & Rio Grande, which had admitted previously to granting 7,999 passes during the month of June, answered Commissioner Harlan's question: "No, we have no standard. We simply use our best judgment."

"But you are influenced by the amount of business done with your road by the applicant," asked the commissioner.

Favor 'Men of Affairs.'

"To some extent. We issue passes to men of affairs, however, more than to little men in a community. We try to know just how much an applicant can or has done for the company. Often students and friends of the company are given passes for their vacation trips."

Instances were shown where large shippers were favored to the exclusion of small ones, though Wild declared

F. E. GORTON, LOCAL MERCHANT, IS DEAD

Attack of Pneumonia Proves Fatal, After Only Brief Illness

Fred E. Gorton, well known merchant, proprietor of Gorton's clothing establishment, 113 East Pikes Peak avenue, died of pneumonia this morning at 12:30 o'clock at his home, 23 West Second street, 14½.

He had been confined to his bed since last Friday when, stricken with symptoms of pneumonia, he was compelled to leave his place of business. A sudden change for the worse developed Sunday, and since then it had been feared that he might not recover. He had been afflicted with heart trouble for years, and that ailment made his attack against pneumonia more difficult.

By a sad coincidence, John Evans, business associate of Mr. Gorton for many years, left last night for California, where he was the guest of his friend at whose bedside he remained the day. Although he realized that Mr. Gorton had slight chances of recovery, he had no thought that death was so near. Mr. Evans now resides in Pomona, Cal.

Lived Here Several Years.

Mr. Gorton is survived by his widow, who, before their marriage six years ago, was Miss Louise Keomans, and by their children—Donald, aged 4, Margaret, 3, and Fred, Jr., 6 months old. In addition, he is survived by his first son, Earl, 14, who is in his first marriage to Miss Maud Robbins, who died in 1906. She was a sister of E. G. Robbins. Mr. Gorton also leaves two brothers in Oklahoma.

Bluffton, S. C., was born in Council Bluffs, Iowa, in 1870. He came to Colorado Springs in 1890 and entered the employ of E. G. Robbins. In 1891, he went to Livingston, Mont., and established a clothing business there with John Evans, under the firm name of Evans & Gorton.

On account of his ill health, he returned to Colorado Springs a year later with Mr. Evans and established a clothing business here under the same firm name. He purchased Mr. Evans' interest in the business about three years ago.

Mr. Gorton was a member of Colorado Springs lodge of Elks, No. 709, and also a member of the Modern Woodmen of America. He was active in church work and a member of the First Methodist church.

BANKER URGES GOVERNMENT CONTROL

Concentration of Wealth in New York Sufficient, Says Henry P. Davison

TRUSTS GOOD FOR COUNTRY

Declares Court Interference Has Done Great Harm to Whole World

WASHINGTON, Jan. 23.—That the present concentration of financial resources in New York is "sufficient to care for the business and commerce of the country," was the statement today of Henry P. Davison of J. P. Morgan & Co., on the stand before the house money trust committee. The question of further concentration, Mr. Davison asserted, depended entirely upon the development of the business and commerce of the country. Mr. Davison went on record as favoring "combination and control of industries under government regulation, as opposed to free unrestricted competition."

Samuel Untermyer, counsel for the committee, and the witness engaged in a spirited tilt on the conduct of banking affairs in European countries. Mr. Untermyer insisted that England, France and Germany prevent control of banks through interlocking directorates.

"Talk about concentration, why, we haven't even started in this country, as compared with the European nations," was Mr. Davison's reply to this statement.

Favors Holding Companies.

Mr. Davison said he saw no objection to a few holding companies of bank assets. "If the public thought it desirable," but he was opposed to any law that would force banks to make public lists of their stockholders. "The public has a right of knowing," he said, "the extent of controlling concerns through holding companies," asked Mr. Untermyer.

"Generally speaking," said Mr. Davison, "I have no prejudice against holding companies."

"Most of the companies your firm has organized have been holding companies, have they not?" asked Mr. Untermyer.

"Yes," said Mr. Davison, and in this respect I want to qualify my opinion. On general principles, I don't believe in holding companies, but I think there are circumstances which

YOUNG TURKS OVERTHROW OTTOMAN GOVERNMENT

People Clamor for War, Declaring That Adrianople Must Not Be Ceded to Allies; Bitter Conflict Expected

CONSTANTINOPLE, Jan. 23. Nazim Pasha, the former war minister and commander of the Turkish army, was shot dead in a demonstration here tonight.

Enver Bey and Talaat Bey had given explicit orders that no blood should be shed. But Nazim Pasha's aide de camp fired from a window of the porte at Enver Bey and his companion, and they returned the fire.

Their bullets killed Nazim Pasha himself.

In spite of this tragedy there was no disturbance of order elsewhere.

CONSTANTINOPLE, Jan. 23. A crisis in Turkish affairs came today with dramatic suddenness. The grand vizier, Kiamil Pasha and the Ottoman cabinet resigned, and Mahmoud Shekret Pasha, formerly minister of war and commander of the constitutional army which enthroned Mehmed V as sultan, was appointed grand vizier.

Yesterday the grand council pronounced in favor of peace at almost any price. Today a vast crowd, drawn from all classes, declared for war, rather than peace without Adrianople. And because the crowd was backed by general public opinion, the government surrendered and relinquished office, making way for the same man whom the people had elected to the top after the revolutions of 1908 and 1909.

The resignation of the cabinet was announced in the following official statement:

Official Note Issued.

The decision of Kiamil Pasha's cabinet, taken in response to the note handed to the Turkish government by the European powers to abandon the fortress of Adrianople and part of the islands in the Aegean sea and the convocation of an extraordinary assembly of the grand council of the Ottoman empire to which the cab-

FIXED PRICES AT "GARY DINNERS"?

COREY IS GOOD WITNESS FOR PROSECUTION

Claims 'Understandings' Were Made as to Control of Trade

NEW YORK, Jan. 23.—William Elmer Corey, former president of the United States Steel corporation, again a witness today in the hearings of the government suit to dissolve the corporation under the Sherman antitrust law, gave further testimony in support of the government charges that the corporation is a monopolistic combination.

He testified that "understandings" to maintain prices were made at the famous "Gary dinners" given in New York by Judge E. H. Gary, chairman of the corporation. He confirmed in testimony the existence of "a plate and structural pool," and declared that Judge Gary had had knowledge of it.

Mr. Corey, who resigned as president of the corporation in 1910, made it plain that he had been furnished with Judge Gary and the members of the finance committee in matters of policy.

Claim Evidence Contradictory.

His testimony on the Gary dinners was in direct contradiction, it was pointed out by counsel tonight, to that of the committee of the house of the steel corporation in its answer to the government's complaint. This answer denied that "at any of said meetings or at any other time and place there was an agreement or understanding that prices should be maintained."

In his testimony concerning a number of these pools, Mr. Corey said that the "plate and structural pool" divided business and imposed penalties when the business of a member exceeded its allowance.

"Was it known at the executive offices of the steel corporation that subsidiaries of the corporation were operating under the agreements which you have described?" asked Judge Jacob M. Dickinson, chief attorney for the government.

"Council for the steel corporation objected to the question."

"Did E. H. Gary know about it?" asked the witness.

Judge Gary, in his testimony before the Steadler committee, said he had put a stop to the pools as soon as he learned of their existence.

ROCKEFELLER "LOST" AGAIN

BRUNSWICK, Ga., Jan. 23.—William Rockefeller, whose testimony is being given by the committee of the house of representatives investigating the so-called money trust, is reported to have left Jacksonville this afternoon. Nothing definite could be learned as to Mr. Rockefeller's destination.

U. S. HAS RIGHT TO EXEMPT OWN SHIPS FROM TOLL KNOX

British Note of Protest to Panama Canal Rates Answered in Irrefutable Terms; England Unduly Alarmed, He Says

WASHINGTON, Jan. 23.—Secretary Knox's reply to the British protest against the exemption of American coastwise shipping from Panama canal tolls assures the British government that domestic coastwise trade will not be permitted to extend operation into foreign competitive fields.

The reply also gives assurance that increased tolls will not be laid on foreign shipping to balance the remission to American ships. If Great Britain is not satisfied on these points, America proposes a special commission of adjustment.

The communication is devoted to the purpose of reducing to the smallest point and number the issues upon which two governments failed to agree and as to these only two—it is contended that they are entirely susceptible of adjustment by diplomatic means and without recourse to arbitration.

If this course should not prove acceptable to the British government, it is suggested that the whole controversy be referred to a special commission of inquiry, provision for which was made in the unratified Knox-Bryce general arbitration treaty.

President Taft Delays Action.

That convention was approved by the senate with an amendment which curtailed the power of the special commission of inquiry to mere investigation and report, and refused to permit the commission to bind either country to a course of arbitration in its findings. Because of this amendment, President Taft so far has declined to consummate the treaty by exchanging ratifications with the British government.

To meet the needs of the present issue, Secretary Knox now offers to give life to the treaty by an immediate exchange of ratifications, which would leave the existence of a general arbitration treaty between America and Great Britain after the lapse of the existing Hay-Pauncefote treaty June 4, next.

As an alternative, the secretary is willing that a combination be created for the special purpose of ascertaining the facts in regard to the effect upon British shipping of the Panama canal tolls act and the president's proclamation fixing the tolls.

England Unduly Alarmed.
Much of the secretary's argument rests upon his contention that Sir Edward Grey's protest, being made in advance of the issue of the president's proclamation fixing the tolls, is entirely inapplicable to the controversy in its present state, and that, as a matter of fact, the British contention rests upon apprehension of things that may happen in the future to the injury of British shipping, which, in all probability, never will occur.

Secretary Knox begins his note, which was delivered to the British foreign office through Mr. Laughlin, the American charge at London, by the flat statement that he cannot agree with the British interpretation of the canal treaties, so far as they limit the freedom of action of American vessels.

Pointing out that the Grey note was issued without consideration of the president's toll proclamation, the secretary states that Sir Edward Grey deals chiefly with the possibilities of what the president might do under the canal act, whereas the proclamation has entirely changed the situation.

Is Surprise to United States.
Taking up the three objections made by the British government, Secretary Knox first discusses that which applies to the exemption from tolls of the government vessels of Panama. This, he declares to be a great and complete surprise to the United States, which always had asserted without challenge that the statute of the countries immediately concerned by reason of their political relation to the treaty in which the canal was to be constructed, was different from that of all other countries. He does not believe, therefore, that the British government intended to propose arbitration of this question.

In regard to a second British objection that the Panama canal act might be thought to confer upon the president the power to discriminate in the use of the canal in favor of all ships belonging to the United States and its citizens, even in the foreign trade, by granting them reduced tolls, the note quotes from the memorandum submitted upon the canal act by the president, which was signed as follows: "It is, therefore, necessary to disclose the policy of such discrimination until the question may arise in connection with the question of this question."

The postal laws make it a crime punishable by imprisonment to sell any stamp issued by the government for less than its face value. In addition to selling the stamps for less than the price for which they could have been purchased from the government, the brokers know that the stamps were stolen when they purchased them. In some instances brokers conspired with

Favorable Report Is Made in Senate on Bill to Limit State Officers to Two Terms

By WALTER LAWSON WILDER

DENVER, Dec. 32.—The senate this afternoon in committee of the whole made a favorable report upon Senator W. C. Robinson's bill limiting state officers to two consecutive terms after it had struck out the portion of the bill which relates to county officers. Three separate motions were made by as many senators to strike out the exacting clause, but these were defeated upon a rising vote. Senator Corcoran, voting in each case with his colleague in favor of the bill.

The final effort to kill the proposed law was made by Senator Hayden, who expressed his belief that it should be left for the people to decide for how long elective officers should be continued in power, and upon this motion there was a tie vote. The motion to report favorably was 17 yeas to 16 nays. Another attempt will be made to defeat the measure when it is reported from the committee of the whole to the senate.

No Investigation of Asylum.

The principal event of the day in the house was the debate upon Senator Helen Robinson's joint resolution

British Note of Protest to Panama Canal Rates Answered in Irrefutable Terms; England Unduly Alarmed, He Says

WASHINGTON, Jan. 22. Secretary Knox's reply to the British protest against the exemption of American coastwise shipping from Panama canal tolls assures the British government that domestic coastwise trade will not be permitted to extend operation into foreign competitive fields.

The reply also gives assurance that increased tolls will not be laid on foreign shipping to balance the remission to American ships. If Great Britain is not satisfied on these points, America proposes a special commission of adjustment.

The Commission is devoted to the task of helping in the earliest possible manner the States upon which the governments failed to agree to settle amicably with a consideration of their respective responsibilities in disputes and to their recourse to arbitration.

It is a course should not prove satisfactory to the British government, it is suggested that the whole controversy be referred to a special commission of inquiry, composed of members of parliament, to be appointed by a vote made in the unratified Knox-Hayne general arbitration treaty.

exchange satisfactions with the British government.

To meet the needs of the present, it was Secretary Knox's own offer to settle in the treaty, as an immediate exchange of ratifications, which would transfer the existence of a general arbitration treaty between America and Great Britain after the lapse of the existing Hay-Pauncefote treaty June 4, next.

As Mr. Alton-Baker has been unwilling that a commission be created for the special purpose of determining the facts in regard to the effects

President Taft Delays Action.
That contention was answered by the Senate with an amendment which curtailed the power of the special commission of inquiry to make investigations and report and refused to permit the commission to find either "guilty or innocent" and to report its findings. Because of this amendment, President Taft so far has declined to condemn the treaty by

GOVT. INDICTS STAMP BROKERS

MILLIONS INVOLVED IN
ILLEGAL TRAFFIC
Reaches Large Proportions in

Several Large American Cities

WASHINGTON, Jan. 25.—(Special)—The United States government has refused to extradite the alleged slayer of President McKinley, because it is estimated that the government would lose several millions of dollars annually, has been

disclosed by postoffice inspectors whose investigations were reported today to Assistant General Hethcox. They included the names of several high and confidential employees of large concerns throughout the United States. Through confessions secured by the inspectors, it was learned that stamps had been placed in the mail by burglars from postoffices and other points, and that the stamps were intended to promote arbitration in the complete surprise to the United States, which always had asserted without challenge that the statute of the country forbade the use of stamps and of their political relation to the treaty in which the canal was to be constructed, was different from that of all other countries. He does not believe that the stamps were placed in the mail intended to promote arbitration.

The postal laws make it a crime punishable by imprisonment to sell any stamp issued by the government without the proper official authorization to selling the stamps for less than

the price for which they could have purchased from the government, the brokers knew that the stamps were undervalued and they raised them. In some instances brokers conspired with

INSANE' ASYLUM WILL

NOT BE INVESTIGATED
Favorable Report Is Made in Senate on Bill to Limit
State Officers to Two Terms

By **WALTER LAWSON WILDDR**.

DENVER, Dec. 33.—The senate this afternoon in committee of the whole made a favorable report upon Senator W. C. Robinson's bill limiting state funds for the investigation of the insane asylum at Pueblo. When this resolution was presented to the house, Representative Gallup of Pueblo made a bitter attack upon the resolution, and

officers to two consecutive terms, after which it had struck out the position of the bill which relates to county officers. The bill was then amended so that it made by as many Senators to strike out the counting clause, but these were defeated upon a rising vote. Senator Cornforth voting in such a manner that colleague in favor of the bill.

The final effort to kill the proposition was made by Senator Hayden, who expressed his belief that it would be better to let the people determine for how long elective officers should be continued in power. And upon this motion there was a vote. The motion for repeal was carried by a vote of 19 to 17. Another attempt will be made to defeat the measure.

When it is reported from the committee of the whole to the senate.

No investigation of Asylum.

The principal event of the day in the house was the debate upon Senator Helen Robinson's joint resolution

RAILROAD OFFICIALS

(Continued From Page One.)
 and City, or any larger city, when it comes to this matter. There is no need for a union depot in this city except as a little accommodation to the traveling public," said the judge, in closing.

Says Majority Want It.
 Chairman Judge T. Ensign of the commission took issue with Judge Hunt and made the statement that five-sixths of the people in Colorado Springs want the union depot.

The principal cause for this meeting was to get together with the railroad men and find out if any such scheme can be brought about, said Judge Ensign. "The Santa Fe system, is of course, the most important one we are dealing with and I don't believe they will attempt to block our plan if it is feasible. This is the first time we have ever been able to get so many railroad representatives here, and I believe we can get them now," he said.

Judge Ensign presented a map prepared by the commission, showing that the Santa Fe road, built on the grade of the city, runs through the city.

Leonard E. Curtis opened the meeting with his outline of the plans of the commission. He said of the work of the commission in investigating the difficulties that surround the project, and of the securing through competent engineers of grades that he believed would be suitable for the Santa Fe engineers. He laid particular stress upon the proposal of the commission which is as follows:

Synopsis of Proposal.
 That the several railway companies doing business at Colorado Springs unite, for the formation of a union terminal company, the capital stock of which shall be owned, in equitable proportions, by these companies, or their representatives. The new company to handle all local railway traffic, both freight and passenger, and take over the Denver and Rio Grande depot, right of way, tracks and terminal facilities. Also the Rock Island terminal properties, near the Rio Grande station, holding them for the joint use and benefit of the participating companies. Also making provision whereby other carrier companies wishing, later, to share in these privileges, could be permitted to do so.

"It is apparent that in carrying out a plan like this the Denver and Rio Grande would be a receiving company and not a disbursing one. Also in lesser degree, the Rock Island would be a receiving company. The Santa Fe would reap present gain by saving the cost of a new passenger depot, large expenditure for double tracks through the city, additional undercrossings, etc., and would recover considerable in the way of savings from its present holdings. It being understood that the city would carry forward extensive and valuable improvements in the Santa Fe-Shook's Run district.

"All of the companies would profit from the increased economy of operation, and the commercial and other advantages of the new location."

Curtis Asks for Action.
 "If feasible we want to know if action as possible in order that we may be able to get our plans in shape for such progress as is needed," said Mr. Curtis.

"If it is impracticable we want to know it and drop this matter at once." Mr. Curtis then made a motion to the effect that a committee be appointed in which each railroad would be represented, as well as the depot commission and other bodies.

General Manager F. C. Fox of the Santa Fe, was the first railroad man to give his opinion on the new committee, which he vigorously opposed. "The depot commission should submit its proposition, which is most vague in our minds at this time, before such a committee is formed. We do not know where you people stand now. All we know is that you want the Santa Fe to detour its trains in order that they can enter the Rio Grande station," he said.

Mr. Fox stated that the correspondence between his railroad and the committee has not been any too definite and that whatever delay has occurred came as the result of the committee's action.

Chief Engineer Berry of the Rock Island, a railroad man with many

MRS. JOHN RODGERS, JR.

Mrs. John Rodgers, Jr., sister-in-law of Secretary of War Stimson, has agreed to go to Washington to speak at a series of drawing room meetings, which the Washington Woman Suffrage Parade committee is arranging for the purpose of arousing interest among the leaders of Washington society in the movement, and induce them to march in the parade on March 3.

years' construction and operating experience, stated that his road has no definite data of the plans of the commission until he received several maps and some material from it yesterday afternoon just before the meeting came to order.

"We are here as an evidence of good faith on the part of the railroads. The Rock Island is not ready to say what action it can take in this matter as yet," he said.

Question of Grades Important.

Mr. Berry thought the appointment of a committee as suggested by Mr. Curtis as premature. He believed that the question of grades was the most important, as he had found it so in his railroad experience. "The hauling freight a small grade is a great inconvenience and the Santa Fe must look after this line of their business," he added. Mr. Berry closed with the first real action of the afternoon in suggesting that the railroad men take up the matter, look into it as railroad men, come to some conclusion, and report to the commission as soon as possible.

This suggestion appealed to Mr. Curtis, who stated that the commission wanted the opinion of experts before anything was done.

Chief Engineer C. W. Galt of the Denver and Rio Grande was not in favor of the general committee, and stated that he would have to see the heads of his line before any action could be taken other than investigation.

C. & S. and Santa Fe Together.
 J. D. Welch, general superintendent of the Colorado & Southern, stated that the action of his railroad would depend upon the view taken by the Santa Fe, as the C. & S. traffic is routed that way through Colorado Springs. He emphasized particularly the matter of grades, stating that he could not favor any plan that would cut down the time of travel or the expense of freight handling.

N. L. Drew, general agent for the Colorado Midland in Colorado Springs, made similar remarks on the stand of the road he represents.

At the request of Mr. Berry, the railroad men at the meeting held a private conference and decided that the special committee of railroad men would solve the problems presented better than a general committee, and this was suggested to the meeting. It met with the commission's approval, and Mr. Berry was chosen chairman by the representatives present. He announced that as soon as possible he would present the working details of the examination of the scheme and get the representatives together in this city. This probably will be within the next month.

Nothing Settled Definitely.
 The conference settled nothing for the commission, except that the railroads investigate the feasibility of the union depot proposition, and that their report probably will be considered, if made, if the report is favorable to such a move, the final commission will take up the matter of definite plans, but if not, it will probably drop the project.

Congressman-elect H. H. Seldomridge made a short talk telling of the history of the movement in this city for a union station. Mr. Seldomridge was the first chairman of the union depot committee, before the commission was formed.

The meeting was held in the third room of the Chamber of Commerce, which was crowded with citizens and railroad men interested in the matter. W. H. Spurgeon, vice president of the Chamber of Commerce, presided. The union depot commission was present in a body. The commission consists of Col. E. T. Higgins, Leonard E. Curtis, E. C. Robbins, Mark Skinner, O. B. Hemenway, W. K. Argo and J. H. Schieler.

Big Railroad Men Present.
 The railroads were represented as follows: Atchison, Topeka & Santa Fe—General Manager F. C. Fox, Amarillo, Tex.; General Superintendent J. M. Kurn, La Junta; Superintendent C. H. Bristol, Pueblo; and local officials.

Rock Island—Assistant General Manager J. B. Smalley, Topeka, Kan.; General Attorney J. E. Bell, Chicago; Chief Engineer G. W. Berry, and local officials.

GOVERNMENT INDICTS

(Continued From Page One.)

some employees to buy at prices agreed upon all the stamps other clerks could steal from the state.

Several Are Indicted.

The first of a series of indictments resulting from the investigations was handed down today in New York city yesterday. Of the men indicted, Richard Frederick and Irving ("Lazzy") Sevel, were arrested. Other indictments will follow.

Illegal trafficking in stamps in Boston, Philadelphia, Baltimore, Pittsburg, Chicago, Indianapolis, St. Louis, Minneapolis, Cincinnati, New Orleans, Kansas City, Denver, San Francisco, Seattle, Portland, Ore., and many other cities, has reached large proportions.

One stamp broken in New York city, who sells from \$200 to \$1,000 worth of stamps a day to merchants, it is

SMALLEST OF DYNAMOS

From the New York Press.
 The smallest electric dynamo in the world was exhibited recently before the French Academy of Sciences. So small is this dynamo that its base would not occupy all the space on an American penny.

The instrument is a perfect miniature of a large machine and is a practical model in every respect. It works with a hum that sounds like the buzz of a mosquito. It weighs only one-fifth of an ounce and is six-tenths of an inch thick.

The little dynamo can be used not only as a generator, but as a motor, consuming in this latter case two amperes of electric current at a pressure of two and one-half volts. A small pocket battery will operate it.

RED SNOW IN SWITZERLAND
From the New York Tribune.
GENEVA—Red snow fell a few days ago on the Silvretta glacier and in other parts of the Vorarlberg district as high as 10,000 feet, the snowfall being fairly heavy.
The superstitious villagers, who believe 1813 an unlucky year, are much troubled by the phenomenon, declaring it means a great war.

INSANE ASYLUM

(Continued From Page One.)
Fin. Mann, Old. Riddle, Parsons, Valdez and Williams.
The house then refused, by a vote of 33 to 23, to reconsider its action, thus permanently killing the bill.
Harmful, Says Dr. Busby.
Dr. Busby, the former superintendent of the asylum at Pueblo, this afternoon expressed the opinion that the resolution, if it had been adopted, would have done far more harm than good. "Apart from any question of the good faith of those responsible for the resolution," he said, "the proposed investigation would have stirred up the affairs and the inmates of the institution in a way that could not have been remedied in many months. The media of the institution have been presented as proved practically by the board of lunacy and others and appropriations have been made by the legislature, which have been vetoed by the governor because of a lack of funds.
"The visiting committee appointed by the last assembly has yet to make its report, which will set forth the needs of the asylum with full authority. No good could come from the proposed investigation and a vast amount of harm might be done."

Rigid Libel Law Bill.
Senator Hecker's bill for a rigid libel law came up in the senate this morning. The report of the committee was originally adverse, declaring that the bill is unwarranted, that a much less drastic bill now upon the statute books has proved practically without value, that it is opposed to present day thought and belief in regard to liberty of press and speech. An amendment was adopted to the report, presenting the bill to the senate without recommendation for the reason, it is said, that several senators desire to express their opinions upon this matter.

In the house this afternoon the committee on privileges and elections was given authority to send for witnesses and documents in the contested election case of Block vs. Humason from Gunnison county. The new house bills today include one against blackmailing and Black Hand letters, a bill requiring the incorporation or discontinuance of all private banks, a bill to fix salaries of county officers in counties of the second class, and a bill to make it a misdemeanor to publish anonymous articles relating to initiated measures or candidates for public office.

Great Interest in Bills.
Considerable interest is being shown in the bills recently introduced relating to the separate schools for negroes and a lively discussion is assured when the bills come before the house and senate. The fact is noted that the negroes are divided in opinion upon these measures, some declaring that such a law would be gratifying for the advantage of that race, while others are very strongly opposed to the measure.

U. S. HAS RIGHT

(Continued from Page One.)
The exercise of the president's discretion.

Arbitration is Premature.
As no question yet has arisen on this point, which, in the words of the existing arbitration treaty, "it may not have been possible to settle by diplomacy," the note holds that the suggestion of arbitration is premature. Before passing from that stage of the question, Secretary Knox emphatically disavows entertaining any doubt as to the right to exempt American warships and other government vessels from tolls, as they are a part of the government protective system, and it is not understood that Great Britain challenges the right of the United States to protect the canal, or to require an explanation of what relation the movement of a particular vessel through the canal has to its protection.
"Thus clearing away all irrelevant objections, the note presents to the British assertion that the exemption of United States coastwise vessels from tolls is a discrimination against British vessels. Mr. Knox recalls Sir Edward Grey's admission of the right of the United States to grant subsidies to its shipping generally or any particular branches, and although it is a form of subsidy, to exempt coastwise shipping from tolls, Sir Edward Grey regards it as objectionable.

MRS. HENRY B. HARRIS
Mrs. Henry B. Harris, widow of the late Henry B. Harris, the theatrical man, has broken all damage suit records by asking \$1,000,000 because of the loss of her husband in the Titanic disaster. In the claim she has filed against the Oceanic Steamship Navigation company, Ltd. She asks for \$27,000 for personal losses.

as throwing an unfair share of the burden of upkeep in the canal on foreign shipping.

Arguments in Detail.
The secretary points out that Great Britain does not claim the right to participate in American coastwise trade, but objects to the exemption of that trade from tolls because they may adversely affect British rights to equal treatment in the payment of tolls or to just and equitable tolls. He also recalls the British objection that coastwise trade cannot be circumscribed so completely that benefits conferred upon it will not affect vessels engaged in the foreign trade. Thus, cargo intended for an American port beyond the canal and shipped on board a foreign ship could be sent to its destination more cheaply through the operation of the proposed exemption by being landed at a United States port before reaching the canal and then sent on as coastwise trade, to the detriment of foreign ships in direct trade.
Taking this statement in connection with one by Mr. Knox, on the same point, to the effect that perhaps no objection could be taken to the exemption if limited to bona fide coastwise traffic, Secretary Knox declares this to be admission of the American right to exempt its vessels in the coastwise trade from tolls.

Conjecture and Not Facts.
"As to this," says the secretary, "it is sufficient to say that obviously the United States is not to be denied the power to remit tolls to its own coastwise trade because of a suspicion of possibility that the regulations yet to be framed may not restrict this exemption to bona fide coastwise traffic."

The answer to this objection, therefore, apart from any question of treaty interpretation, is that it rests on conjecture as to what may happen rather than upon facts, and does not present a question for submission to arbitration, as it has not as yet passed beyond the stage where it can properly be dealt with by diplomatic discussion.
"It will be remembered that only questions which it may not be possible to settle by diplomacy are referred to arbitration," Mr. Knox continues.
The secretary disavows in this way another British contention that it is nothing in the United States law to prevent any American vessel from combining foreign commerce with coastwise trade to the detriment of foreign shipping, which he declares depends upon future conditions and facts not yet ascertained, arbitration or which would be premature.

Says Rates Are Equitable.
Taking up Sir Edward Grey's objection that the canal act would enable tolls to be fixed which would not be just and equitable, the secretary, again calling attention to the fact that this statement was made without knowledge of the president's toll proclamation, remarks that this is based upon a mere contingency that there is no claim that the tolls are not actually fixed, are not "just and equitable."
Without admitting that the burden of proof rests upon the United States to show that all traffic has not been reckoned with in fixing up the tolls, and that consequently they are equitable, Secretary Knox welcomes the opportunity of informing the British government that such is the case and that in adopting the rate of \$1.25 per ton, Prof. Emory Johnson included American coastwise shipping in his calculations, noting from his report in which it is shown that Professor Johnson calculated the tonnage passing through the canal in 1912 as composed of American coastwise shipping, 1,600,000 tons; American foreign shipping, 720,000 tons; and foreign shipping, 8,780,000 tons. It was on this estimate that the president fixed the tolls.

Subsidy Clearly Permissible.
"It is a matter of fact," Secretary Knox declares, "the tolls now fixed (of which Sir Edward Grey seems unaware) do not exceed this requirement (interest on the capital expended and the cost of operating and maintaining the canal) and, as heretofore pointed out there is no claim they do, it is not apparent under Sir Edward Grey's contention how Great Britain could be receiving unjust and inequitable treatment if the United States favors its coastwise vessels by not collecting their share of the tolls necessary to meet the requirements."

There is a very clear distinction between an exemption to "take" into account the coastwise tolls in order to determine a just and equitable rate, which is as far as this objection goes

WORST STOMACH TROUBLE ENDED

Indigestion, Gas, Heartburn or Dyspepsia five minutes after taking "Pape's Diapiesin"

Every year there are about a million stomach troubles in the United States, England and Canada. Pape's Diapiesin is the only remedy that gives immediate relief. It is a powerful stomachic and antacid, and it is the only remedy that gives immediate relief. It is a powerful stomachic and antacid, and it is the only remedy that gives immediate relief.

These large (50¢) cases contain more than sufficient to thoroughly cure almost any case of dyspepsia, indigestion or any other stomach disorder.

and the remission of such tolls, or their collection coupled with their payment in the form of a subsidy. The exemption of the coastwise trade from tolls, or the refunding of tolls collected from the coastwise trade merely is a subsidy granted by the United States to that trade and the loss resulting from not collecting, or from refunding those tolls, will fall solely upon the United States. In the same way the loss will fall on the United States if the tolls fixed by the president's proclamation on all vessels represent less than the fair value of the service rendered, which must necessarily be the case for many years, and the United States will, therefore, be in the position of subsidizing or aiding not merely its own coastwise vessels but foreign vessels as well."

United States Can Violate Treaty.
Summarizing the British objections and commenting upon them, Secretary Knox does not deny that congress has the power, through the president, to violate the terms of the Hay-Pauncefote treaty in its aspect as a rule of municipal law. That, he says, only would become a just ground for complaint in the event that the power was used against British shipping. It is the improper exercise of this power and not its possession, which alone can give rise to an international cause of action, remarks the secretary.

Only when complaint is made by Great Britain that British vessels actually have been subjected to unequal treatment or inequitable tolls, Secretary Knox asserts, can the question be raised whether the United States is bound by the Hay-Pauncefote treaty to collect tolls from American vessels and whether British vessels are entitled to equal treatment.
"Until these objections rest upon something more substantial than mere possibility," he says, "it is not believed that they should be submitted to arbitration. The existence of an arbitration treaty does not create a right of action; it merely provides a means of settlement to be resorted to, only when other sources of diplomacy have failed."

Should Examine Facts, He Says.
Therefore, the secretary holds that it is not now necessary to discuss questions of facts which have not yet arisen.
The American note concludes as follows:
"It is recognized by this government that the situation developed by the present discussion may require an examination by Great Britain into the facts above set forth as to the basis upon which the tolls fixed by the president's proclamation have been computed, and also into the regulations and restrictions circumscribing the coastwise trade of the United States as well as into other facts bearing upon the situation, with the view of determining whether or not, as a matter of fact under present conditions there is any ground for claiming that the president's proclamation actually subjects British vessels to inequality of treatment, or to unjust and inequitable tolls."

"If it should be found as a result of such an examination on the part of Great Britain that a difference of opinion exists between the two governments on any important questions of facts involved in this discussion, then a situation will have arisen which, in the opinion of this government, could with advantage be dealt with by referring the controversy to a commission of inquiry for examination and report in the way provided for in the arbitration treaty of August 3, 1903."

NEW YORK HOTEL MEN WOULD JAIL ETTOR

(Joseph J. Ettor) Members of the Hotel Men's association of New York are bitterly incensed against Joseph J. Ettor, one of the leaders of the Industrial Workers of the World, who is fighting his aid in organizing the strike of the hotel employees. Several of the hotel proprietors declare that Ettor should be placed in jail, and have this assertion on the story in which Ettor is credited with having advised the hotel employees to shake it unsafe for capitalists to dine to eat. Ettor indignantly denies the story, and District Attorney Whitman intimates he could find no way to hold Ettor even if he had made such a suggestion.

1911, between the United States and Great Britain.

Recourse in Last Resort.

"The necessity for inquiring into questions of fact in their relation to controversies under diplomatic discussion was contemplated by both parties in negotiating that treaty which provides for the institution, as occasion arises, of a joint high commission of inquiry, which upon the request of either party might be referred for impartial and conscientious investigation, the commission being authorized upon such reference to examine into and report upon the particular questions or matters referred to it for the purpose of facilitating the solution of disputes by elucidating the facts and to define the issues presented by such questions and also to include in its report such recommendations and conclusions as may be appropriate."
"This proposal might be carried out should occasion arise for adopting it, either under a special agreement or under the unratified arbitration treaty above mentioned, if Great Britain is prepared to join in ratifying that treaty, which the United States is prepared to do."

Take your prescriptions to the Opera House Drug Co.

REBEL BANDS

(Continued from Page One.)
Jose Blanco, released by rebels at Guadalupe, brings a peace offer to the federal government from the rebels, who threaten to take Juarez unless their demands are granted. The matter is related by the Mexican consul here as impossible, the details of the proposed plan being withheld. General Blanco says he is under parole not to enter the field against the rebels.

Bands Heavily Armed.

The insurgents at Guadalupe are under command of Colonel Roque Gomez, and American ranchmen report them well armed and mounted. They will cooperate with another group organized at Palomas, opposite Columbus, N. M., by Colonel David de la Fuente, who recently jumped bond at San Antonio, Tex., where he was held on a neutrality violation charge. Other groups are said to be operating immediately below Juarez along the railway lines. Inez Salazar, who appeared to be the acting rebel commander-in-chief, is reported to be operating farther to the south and may encounter federal reinforcements being rushed to the Juarez garrison from the state capital.

At Juarez today two Canon cannon throwing shrapnel were placed on a hill commanding the town from the southwest. Two machine guns complete the artillery strength. Aside from 200 regular troops, some 150 rural and city police and customs guards have been called upon to be ready.

Delay Dangerous to Rebels.

EL PASO, Tex., Jan. 23.—If the rebels "delay longer" in moving on Juarez the taking of the border town will be difficult. Military trains bearing 700 federal troops of all arms in service are expected to arrive at Juarez before tomorrow morning. They come from Chihuahua City behind work trains which have made record time in crisscrossing the bridges burned by rebels along the Mexican railway. Communication on the railway wires was restored tonight.

MEN OF AFFAIRS

(Continued from Page One.)
this favoritism was not done to injure competition in any way. Mr. Willard asked, in his judgment, the Colorado roads would be injured if the right to issue passes were taken away from them and left to the Utah lines. After some hesitation, he replied that the Colorado lines would be affected some, but not to any great extent. During the day it was brought out that the Denver & Rio Grande has been accustomed to give transportation to Senator Simon Guggenheim of Colorado, and Senator Reed Smoot of Utah, and to lesser political personages. Twenty-five witnesses, including Denver shippers, have been subpoenaed for tomorrow morning.

Philanthropic efforts have reduced the infant mortality of New York from 158 per 1,000 to 149.

SHOES SET WITH COSTLY GEMS

From the Washington Times.
Costliest of all shoes that will touch the pavements of Washington in 1913 probably will be those of Mrs. Charles S. Alden, whose husband gave her a Christmas gift of satin footwear, beaded with rhinestones.
Scores of the brilliant stones are set in the heels of the shoes, from the ground up to the soft skin which encases the feet. The cost of the stones, which have all the appearance of diamonds, is estimated at several hundred dollars.

Bachelors are more liable to become insane than married men, according to a report of government investigators at Washington.

Edison Remains in
Work Shop Instead
of Accepting Medal

NEW YORK, Jan. 23.—Thomas A. Edison remained at work in his laboratory at Englewood, N. J., tonight, instead of coming to this city to receive from the American Museum of Natural History a medal in honor of an old invention. Mrs. Edison, who came to accept the honor for him, explained that the inventor has been in seclusion in his workshop for two months, and expects to continue in retirement until he completes his present work. The medal was the Rathenau honor for an invention of a storage battery device permitting light without heat.

EXPECT BIGGER CUT
IN COTTON SCHEDULE

Is Result of Attacks Made by
Manufacturers on Pro-
posed Plan

WASHINGTON, Jan. 23.—When the ways and means committee concluded today the taking of testimony on the cotton schedule, it seemed, apparently, that attacks by mill interests on the proposed Democratic tariff reduction, the textile manufacturers had resulted in a determination by the majority to strike a lower rate of adjustment even than planned in the previous Democratic cotton revision bills. These reductions will run as low as 5 per cent on the cheaper goods. Some witnesses were disposed to be conciliatory in view of the attitude of the Democratic leaders, toward the cotton schedule, but the more common articles used by the poorer classes. There also will be reductions in Schedule J, which deals with flax, hemp, jute and their manufactures. This schedule will be taken up tomorrow.

YOUNG TURKS

(Continued From Page One)
he was taking to the palace. This was greeted with tremendous cheering, which was frantically renewed an hour and a half later when he returned from the palace with an aide appointing Mahmoud Shekfat Pasha grand vizier. While awaiting the return of Enver Bey, the enthusiasm of the crowd was kept at a fever pitch by speeches and the waving of banners. On his return from the palace, the Young Turk leader proceeded to the residence of Mahmoud Shekfat to communicate the imperial message. In the meantime, Talaat Bey assumed provisionally the portfolio of the ministry of the interior, and Ismet Pasha, that of war. In an interview, Talaat Bey said the movement had not been planned but was the outcome of popular feeling, owing to the attitude of the government with regard to Adrianople. If Adrianople were abandoned, he said, disturbances would break out over the length and breadth of the empire. With regard to money, he said the whole nation would make a sacrifice.

No Compromise Possible.
"No compromise is possible," he continued. "The change in the cabinet means that we are going to save the national honor or perish in the attempt. We do not want a continuation of the war, but we are determined to keep the fortress of Adrianople at all costs. This is an indispensable condition of peace."

Kiamil Pasha and the other members of his cabinet remain in their residences under guard. A proclamation nominating Mahmoud Shekfat Pasha as grand vizier was read at the porte at 7 o'clock tonight. On Mahmoud Shekfat Pasha's arrival, he was greeted enthusiastically by the great assembly outside. The portfolio of foreign affairs has been offered to Hassan Hilmi Pasha, the present ambassador at Vienna, and a former grand vizier.

Talaat Bey summoned Noradunghian Effendi this evening for a consultation on the foreign situation. Old Cabinet Criticized.
The committee tonight issued a proclamation, explaining its action. It declares that while the Ottoman government under Said Pasha carried on a successful campaign in Albania, the succeeding government under Mukhtar Pasha ruined Turkish authority in Albania. It thereby excited the appetites of the Balkan powers. "Mukhtar Pasha's cabinet," continues the proclamation, "gave the death blow to the constitution, and its policy led to the formation of the Balkan league. Although it knew of this league, the Mukhtar cabinet disbanded 120,000 troops."

"Russia wanted the war postponed until the spring, but King Ferdinand of Bulgaria said: 'We shall not find such a weak Turkish government in office in the spring.'"

"The general staff had prepared a plan of attack against the Balkan powers, but the Mukhtar and Kiamil cabinets, instead of executing this plan, appointed incapable generals to positions of command and pursued a policy destructive of the warlike spirit of the army and the people. The Kiamil cabinet, instead of prosecuting the war, tried to restore the Hamidian regime."

Betrayed Their Country.
The proclamation further charges that the Kiamil government was displaying undeniable weakness in the peace negotiations. It declares that Kiamil Pasha betrayed his country by offering to yield Adrianople and the Aegean islands, and to conceal his treachery, summoned a consultative assembly. "The Ottoman nation," the proclamation concludes, "could not endure such a government headed by a traitor and thus exercised its right of revolution. Hence the Kiamil cabinet resigned and the sultan was asked to summon a cabinet which will be able to take the fullest advantage of the nation's strength to protect the fatherland."

ALLIES ARE SURPRISED
AT THE SUDDEN CHANGE
LONDON, Jan. 23.—To the ambassadors of the powers who were congratulating themselves that the concert of Europe had settled the war, to the delegates of the Balkan states and to all London, except the Turkish legation, the resignation of Kiamil Pasha and the appointment of Mahmoud Shekfat Pasha to the grand vizierate, came as a bolt from the blue sky. The Turkish delegates have criticized the conviction that the abandoned

6,000 WAITERS IN NEW
YORK READY TO STRIKE

NEW YORK, Jan. 23.—Elizabeth Gurley Flynn, leader of the strike movement which has been smoldering for more than a month, announced tonight that 85 per cent of the 6,000 waiters and hotel employees, members of the International Hotel Workers union, have voted in favor of a strike. As soon as it became known that a strike order would be issued, the entire force of 150 waiters of the Folies Bergere restaurant and half the force at the Hotel Cadillac, and about 100 waiters at the Hotel Rector announced that they would strike.

Shortly before midnight about 1,500 waiters formed in line and marched orderly through the uptown hotel district. Men said to be detectives fired from an automobile into a crowd in Brooklyn when, apparently, they thought themselves in danger from striking garment workers. Joseph Milshtein, a bystander, was mortally wounded. The "detectives" then jumped from the machine and mingled with the crowd. The shooting precipitated furious fighting, in which a dozen men were trampled on and injured. Reserves from two police stations dispersed the rioters.

ment of Adrianople by the ministry would bring a Young Turk cabinet into power. The fact that Shekfat Pasha has been appointed grand vizier, while Talaat Bey, a prominent member of the Young Turk committee and deputy for Adrianople, has been made minister of the interior, is significant. The delegations of the allies received the news with anger and rancor. Some offered the opinion that the Constantinople coup was prearranged—that Shekfat Pasha did not participate in the grand council, and that he knew he would succeed Kiamil Pasha. They chafed more angrily under each successive delay. The withdrawal of their men from industrial pursuits, they say, will place their country "in the power of the money lenders of Europe."

Expect Russian Intervention.
They cherish the hope and belief that if the war is resumed, M. Sazonoff's recent declarations to the Turkish ambassador will insure Russia's active intervention. They think that Russian action would result in the complete ending of the Turkish empire. The beginning of an agreement on this subject is understood already to exist among the powers. Dr. Danneff, head of the Bulgarian delegation, said tonight: "The events of today may be simply another strategic move to reach a certain object."

The Greek delegates observed that their country must be congratulated on refusing to adhere to the armistice. Today's occurrences at Constantinople, they said, are tangible proof that the Turks deserve no quarter until they surrender completely. One of the Servian delegates, speaking for all, said: "We were satisfied last night: we are sorry tonight—but only for Turkey."

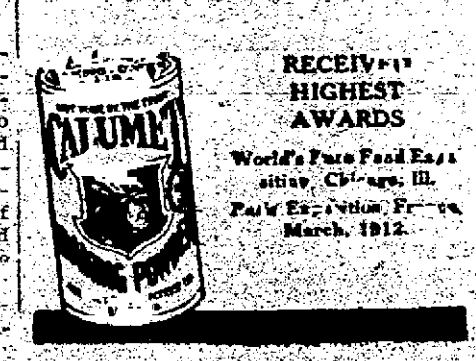

The Montenegrins were joyful, exclaiming: "If the Turks mean what they say, this is equivalent to war. It signifies the cancellation of all arrangements concerning Albania and Scutari, which, after the lessons of the past, we will conquer in a few days."

Norway has 40 schools for elementary instruction in agriculture, horticulture, forestry and dairying, with many students.

The
Making of a
Father

The soul of a man slipped bare of conventions, elemental in its anxiety, its swooping joy and its overpowering wonder at the mystery of life. A rare human document that you will remember long after you've read it.

Such is "The Making of a Father," in the

WOMAN'S HOME COMPANION

BARKER URGES

(Continued From Page One.)
(Continued From Page One.)
make a holding company the best means of handling a situation. "Do you believe three or four or half a dozen men should be allowed to monopolize any industry so long as they do not operate through a holding company?"

Can't Prevent Monopoly.
"I don't know how you could prevent it, if they had the financial backing and the ability to do it," asserted Mr. Davidson. "I have no objection to it. If it was wrong it couldn't be. I see no necessity for a law to prevent it. It would fall of itself in the making."

"Are you opposed to trusts?" asked Mr. Undermyer a few moments later. "I would not say that I was wholly in favor of them in the making, but I was not opposed to them, after they were made. I think they were a great blessing to the country."

Mr. Davidson further said that he "thought it was unfortunate for the people of the entire world" that the courts interfered with the trusts "as they have done."

"Do you think it was wrong for the courts to interfere?" Mr. Undermyer asked. "No," he replied, "but I think it could have been approached better from the other direction, by regulation, not disintegration. You cannot any more dissolve those trusts, in effect, than you can move this continent across the Atlantic ocean."

Mr. Davidson said that he believed a law forcing trusts in reserve cities to be independent of the parent cities and forbidding combinations through interlocking directors would "set us back 15 years."

Tells of Morgan's Operations.
Thomas W. Joyce, an employee of J. P. Morgan, was the first witness examined today. His statement of the deposits of J. P. Morgan & Co. was produced, showing that the firm on November 1 had \$11,000,000 on deposit with New York banks and \$600,000 in Boston banks. Mr. Undermyer endeavored to get from Mr. Joyce the holdings of J. P. Morgan in the constituent companies which were combined in the United States Steel corporation. Mr. Joyce could not remember whether any such stock was held.

Henry P. Davidson, a member of J. P. Morgan and company since January 1, 1908, testified that he negotiated the purchase of the stock in the Guaranty Trust company for the organizers of the voting trust. For the trust company, George F. Baker, he said, had nothing to do with the negotiations. Mr. Baker was at that time connected with the Mutual Life and the Guaranty Trust. Purchase of 8,000 shares from Mrs. E. H. Harrison and 6,000 from the Mutual Life Insurance company, Mr. Davidson said, gave the organizers control of 14,000 out of the 20,000 shares of the company.

Mr. Davidson said that the Guaranty Trust company was acquired by himself and his associates, with the idea that it would be merged into the Bankers Trust company. He made this statement as to the voting trust agreement. "We younger men organized the Bankers Trust company in 1903 and at that time we organized the voting trust. The purpose of this voting trust was to preclude the possibility of the purchase or control of the stock by men active in New York at that time whose every action, responsibility was questioned. When we came to plan to take in the Guaranty company, the voting trust had worked so well in the Bankers Trust, we organized the Guaranty under the same plan also, so that it might easily be taken over."

Mr. Undermyer brought up in questioning that several organizers of the Bankers Trust were widely known bankers, 50 or 60 years old. **FAMOUS INDIAN FIGHTER DIES AT SAN BERNARDINO**
SAN BERNARDINO, Cal., Jan. 23.—Stewart Wall, who fought a battle at most single handed against Apache Indians in 1884, and killed 20 braves before he fell with 14 bullets in his own body, died here today. Wall, who was 81 years old, was the first town marshal of San Bernardino.

STEAMSHIP LINES DIVIDED BUSINESS, SAYS FRANKLIN

WASHINGTON, Jan. 23.—Armed with bulky packages containing copies of rate agreements, shipping contracts and pooling arrangement data, P. A. S. Franklin, vice president of the International Marine company, furnished today the house shipping trust committee with practically all the information it desired concerning the north transatlantic steamship trade. Mr. Franklin put into the record a copy of the agreement entered into by most of the lines controlled by his corporation. The agreement prescribed minimum rates and fixed the division of business as follows: Hamburg-American, 27 1/2 per cent; North German Lloyd, 25 per cent; Holland-American, 18 per cent; Red Star, 30 1/2 per cent.

SUICIDE WAS PARTNER OF WALSH IN CAMP BIRD

GRAND JUNCTION, Jan. 23.—John Murphy, who ended his life here Tuesday by jumping from a bridge across the Grand river, was one of the disciples of the famous Camp Bird mine. A letter from Murphy's son, at Leadville, received here today, states that Murphy sold his interest in the property for \$46,000. Walsh and Murphy prospected in southwestern Colorado for six years before the discovery.

AT ONCE! OPENS UP NOSTRILS AND CLEARS STUFFY HEAD - COLDS AND CATARRH GO

Intense Relief when Nose and Head are Clogged from a Cold. Stops Nasty Catarrhal Discharges. Dull Headache Vanishes. Try Ely's Cream Balm. Get a small bottle any way, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold in head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils, penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately. Don't lay awake tonight struggling for breath, with head stuffed, nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, mucous drooping into the throat, and raw, sore in distressing but, truly, needless. Put your faith just once in "Ely's Cream Balm" and your cold or catarrh will surely disappear. ADV.

MRS. JOHN W. GATES HERE TO VISIT BAKER FAMILY

Mrs. John W. Gates, widow of the late American financier, who has visited often in this city, arrived here yesterday afternoon from Fort Arthur, Tex., with a party of servants, for a short visit with Mr. and Mrs. Henry F. Baker, cousins of Charles G. Gates, who is now in charge of the Gates fortune. The Gates party arrived in a special car, reaching here 24 hours late owing to a freight wreck in Texas. Mrs. Gates is interested in the affairs of Mr. and Mrs. Baker, especially the health of the former, which is not improving as rapidly as had been hoped.

DANCE HALL LAW IS UP TO CITY COUNCIL

Civic League Asks That New Ordinance Be Given Consideration

A tentative ordinance, introduced by the Civic League, regarding public dances, was submitted yesterday by Dr. H. B. Carpenter, Counsel for the League, to the city council, in session at the Chamber of Commerce rooms. The committee of the whole for further consideration of the recent dance hall investigation. The proposed ordinance probably will be considered at the regular meeting of the city council this morning.

The proposed ordinance, as amended, provides that all public dance halls shall be licensed by the city council at a fee of \$5 a year or fraction thereof. No license shall issue until investigation has been made by the city auditor and the city engineer, and reports are received from the commissioner of public safety, the chief of the fire department and the health officer. The license can be revoked by the city council, and all public dance halls also must get a permit from the mayor.

Closing Hour Fixed.
All public dances, it is proposed, must close at 12:30 unless permit is granted from the mayor to continue until 2 a. m. No tickets are to be sold after 11 p. m. and no return checks issued.

Participants in public dances must be 18 years old, unless accompanied by parent or guardian, and it shall be unlawful for any person to misrepresent as parent or guardian.

The proposed ordinance also provides that the mayor shall appoint an inspector for dance halls, and that he shall be permitted to investigate all dance halls, and report violations to the city council. Any person desiring to conduct a dance hall must agree to comply with the regulations of the city. The proposed ordinance also requires that all dance halls be licensed by the city council.

Asks for Recreation Committee.
The Civic League asks that the council provide for the creation of a committee on recreation and public amusement, to make investigations and report for improvements.

The committee, Mr. Carpenter said, would represent the entire community as far as recreation is concerned. He recommended that the various organizations of the city be represented in the committee.

Saturday and Sunday only, one pound 60c chocolate for the Opera House Drug Co.

"BLUE BIRD" WILL BE PRESENTED IN SPRINGS

Colorado Springs and Denver are the only cities in Colorado in which Muehl's "The Blue Bird" will be presented. There will be three performances in this city—Friday night and Saturday matinee and night, next week, at the Opera House. The company will arrive here early on the morning of January 31, in a special train over the Denver & Rio Grande, from Salt Lake City, on a 24-hour run. The setting of the production will require eight and one-half hours. The great spectacle requires an acting cast of 100 persons and about 50 musicians, electricians, property men and members of the working crew. Four baggage cars are used to carry the scenery. The company presenting the spectacle here is the original organization that appeared in New York and Chicago. There is no No. 2 "Blue Bird" company. Colorado Springs is the only two-night stand on the circuit of 220 miles. After the presentation here, the company will go to Denver for the week of February 2, at the Broadway theater.

An unspliable accumulator has been invented for wireless on aeroplanes.

NOVELIST'S WIFE TO RETURN TO STAGE

LOAN CO. FORMED TO AID FARMERS SHORT OF FUNDS

The Farm Loan Association, under the auspices of the Colorado Agricultural Experiment Station, has been organized to aid the business men of Colorado Springs. The association has been organized and the following are named as officers: E. W. Giddings, president; Leonard E. Curtis, John L. Hays, H. A. Barden, H. S. Kaufman, H. A. Magruder, M. C. Gile, J. J. Kunkin, O. R. Henshaw and J. C. Dyer. Officers will be elected soon.

The seed fund started last spring to help the farmers in eastern El Paso county proved a successful venture and the local men interested took action to put its permanent basis and extend its scope. It is believed that the company will be of great benefit not only to the farmers in eastern Colorado but to the business men of Colorado Springs. The company is to be a private, commercial venture, but one of public interest. Further plans will be announced soon for the extension of the work.

EXPERTS PLACE VALUE ON O'BRIEN'S SERVICES

The value of the services of William O'Brien to R. J. Bolles, in the Florida Fruit Lands company, for which he claims \$200,000 in the suit in progress in the federal court here, was estimated yesterday by experts. The experts' reading of the hypothetical question, which covered in brief the period between August, 1905, and March, 1910.

Charles W. Haines testified that the services of O'Brien were worth \$250,000. L. M. Goddard, \$250,000 and R. L. Holland, \$250,000. Mr. Holland also testified that he was attorney for 32 corporations inside the state and two corporations outside the state. All based their estimates upon the results gained, it was stated, from O'Brien's services.

A spirited tilt occurred between L. M. Goddard, former state supreme justice, testifying in behalf of O'Brien on the hypothetical question, and James A. Orr, attorney for Bolles. Judge Goddard made some remarks to which Orr retorted that the witness was making the question. After Judge Stearns, presiding in the suit, ruled that witness was not evading the question, Orr made some remarks reflecting on Judge Goddard as former supreme court justice.

It is about as sure to be an ex-supreme court justice, replied Judge Goddard, "as it is to be a petting house."

Fred Hageman and Fred L. Ballard testified that the "bluebird" value of the land owned by Bolles was about \$15 an acre. That the value of the land was dependent upon the demand for it was contended by an attorney for O'Brien. That it did have a value was shown, he said, by the fact that people were eager and willing to buy it.

Societies and Clubs

There will be a stated communication of El Paso lodge No. 12, A. F. and A. M., this evening at 7:30 o'clock.

A regular meeting of the Daughters of Veterans will be held this afternoon at 2:30 o'clock at the home of Mrs. A. R. Olmstead.

The Ladies Aid society of the Second Congregational church will meet with Mrs. Martin, 1411 South Tejon street, this afternoon at 2:30 o'clock.

The Willing Workers will meet at 8 o'clock this evening at 414 North Spruce street, the parsonage of the Swedish Lutheran church.

The Woman's Study class will meet with Mrs. R. T. Godfrey, 315 Lincoln avenue, Monday afternoon at 2:30 o'clock. Mrs. Jennie Shelly Boyd, president of the Woman's club, will give a talk on the charter form of government and Mrs. Esther Daniels will read a paper on Laura E. Richards and Anna Chapman Ray.

U. P. TO SPEND QUARTER MILLION AT CHEYENNE

CHEYENNE, Wyo., Jan. 23.—Superintendent Jeffers of the Union Pacific announces that \$250,000 will be spent enlarging the Union Pacific shops at Cheyenne. The work will probably be started the spring.

Tremendous increase in the business at this point is responsible for the proposed improvements. Eleven hundred and ten men are now employed in the shops here.

Potash is extensively used in the United States in gold mining, glass-making, mining, photography, dyeing, explosives and fertilizers, and most of the supply comes from Germany.

Motor milk wagons are being introduced.

FINDS RARE SINGER ON STREET

(Mrs. Edward Breitung of New York.) Theodore Kittay, the poor street-singer whose rare voice attracted Mrs. Edward Breitung, the wealthy society woman, while he was singing an aria from one of the operas in front of a fashionable apartment house, is to receive many engagements to sing at society functions as a result of the kindness of Mrs. Breitung. Kittay possesses a fine, rich baritone voice. He studied at the Imperial conservatory at St. Petersburg, but came to this country penniless and without friends.

YOUNG MOTHERS

No young woman, in the joy of coming motherhood, should neglect to prepare her system for the physical ordeal she is to undergo. The health of both herself and the coming child depends largely upon the care she bestows upon herself during the waiting months. Mother's Friend prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. It works with and for nature, and by gradually expanding all tissues, muscles and tendons, involved, and keeping the breasts in good condition, brings the woman to the crisis in splendid physical condition. The baby, too, is more apt to be perfect and strong where the mother has thus prepared herself for nature's supreme function. No better advice could be given a young expectant mother than that she use Mother's Friend; it is a medicine that has proven its value in thousands of cases. Mother's Friend is sold at drug stores. Write for free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

Death and Funerals

The funeral of Wilbur Huntington was held yesterday afternoon from the residence of his sister-in-law, Mrs. C. E. Selmon, 218 East Cache Poudre street. Interment was in Evergreen cemetery.

Word has been received here of the death in Zanesville, O., of Joseph McCord, father of J. Wilbur McCord of this city.

The funeral of Edward Redmond, 85 years old, who had been a resident of El Paso county for many years, was held yesterday at Fountain cemetery. Mr. Redmond died Thursday afternoon. He is survived by his widow and several children.

After an illness of two days, Chris E. Slens, 42 years old, of Cripple Creek, died yesterday in a local hospital. He is survived by a sister, Mrs. A. M. Linsbach, in Minnesota, Kan., where the body probably will be taken for interment, although funeral arrangements have not been made.

UNCOVER RICH LEAD ORE ON BIG BLUE PROPERTY

GEORGETOWN, Colo., Jan. 23.—A body of lead ore from 10 to 18 inches wide is reported having been uncovered on the Big Blue property on Saxon mountain that shows assay values of 151 ounces silver a ton and 25 per cent lead. The discovery was made 1,300 feet from the portal of the adit and the showing is such as to warrant the erection of shafts at an early date.

POLICEMAN ASKS INQUEST HELD OVER MAN HE SHOT

CRIPPLE CREEK, Colo., Jan. 23.—Sheriff Von Phil received a request from Policeman Henry Barr of Denver today requesting that an inquest be held over the body of David Waring, alias Charles Morgan, who is reported to have committed suicide in jail while waiting to be tried for the killing of Walter Irving. Barr arrested Waring last July and during an altercation brought about by Waring's resistance, Barr fired at Waring, inflicting a dangerous wound in the man's abdomen.

BIRTH—A daughter was born to Mr. and Mrs. W. H. L. and Mrs. L. A. today at Bethel hospital.

OPERATION—The condition of Miss Margaret Rossignol, who underwent an operation for appendicitis at the Glueckner sanatorium yesterday morning, was reported last night as satisfactory.

THE ONLY FIREPROOF GARAGE in this city charges the same for storage, repairs, supplies and auto cleaning. Call and see. The C. W. Blake Auto Co. Adv.

LEASES COAL LAND—The Patterson Coal Co. of this city has secured a lease on a 350-acre tract of coal belonging to M. L. Borg, Alex. Merdeth and F. A. Skelton, and situated north of Colorado Springs, near the Pike Peak company's holdings.

ISABELLA SLUMPS—Heavy selling of Isabella stock at the exchange, on Friday, 12½ cents a share, reduced the mining stock market yesterday. More than 18,000 shares changed hands at that price. The annual meeting of the company will be held February 3.

RECOVERING—The Rev. E. Ira Barnett, pastor of the M. E. church, South, is recovering from an attack of la grippe and expects to be able to preach at both services in his church next Sunday. He was unable to fill his pulpit last Sunday.

News of Local Courts

Max Lester was granted a divorce from Mary Lester yesterday in the district court on grounds of desertion for six months. The couple were married in Montana in 1907.

James Wecker, a farmer living near Pueblo, yesterday pleaded guilty in Justice Dunnington's court to a charge of stealing a dog from Dan Hissling, a local dealer.

The trial of Earl F. Menberg, former proprietor of the Anders bath, 11 East Ninth street, on charges of grand larceny will begin this morning in the district court. Menberg is charged with the theft of a diamond scarf pin valued at \$250 from S. S. Bernhard and \$40 in cash and a diamond ball pin valued at \$35 from Dr. F. R. Hissling.

David Boyles, colored, yesterday was sentenced by Judge Morris in the district court to 90 days in the county jail. Boyles was charged with shooting at George Payne in an argument between them last October.

Frank Roark, accused of the theft of merchandise valued at about \$18 from the Foster Grocery Co., where he was employed as a driver, yesterday took a change of venue from Justice Dunnington's court to the court of Justice Dunnington. The hearing is set for February 1.

William Glendinning, who has been in court repeatedly on charges of intoxication, was fined \$200 at the same time in police court yesterday, meaning that he will spend the next 90 days in the city jail working out the fine at night work at the rate of \$2 a day.

In England the first dock was constructed at Liverpool in 1768.

Gouda Cheese

"THE LITTLE EDAM"

Gouda cheese is made in much the same way as the famous Edam cheese, and it might almost be called the "little Edam." However, it has its own delightful flavor and rich, yellow color that only the experts of Holland can secure. The Dutch have long been noted for their fine cheeses and you'll find this no exception. Its purity, healthfulness and deliciousness of flavor will make it a favorite with all who appreciate fine cheese. Its size, too, will be appreciated by those who have a limited space in the refrigerator. A full-sized Edam is advanced. The price is 15c. Let us send one up today.

New Orleans Engineers Clever Baseball Deal

Bought catcher Lafitte from Memphis for \$300.
Traded Lafitte to Chattanooga for Doc Johnson and \$100.
Traded Johnson to Cleveland for Catcher Angermeyer, Third Baseman Kuba and Outfielder Hopdix.
Traded Catcher to Cleveland for \$3,000.
Traded Catcher Yantz, Second Baseman Axt, Pitcher Brenner, Third Baseman Kuba and Outfielder Hopdix.
Signed Lafitte for nothing when he became a free agent and then sold him for \$300, his original cost.
David Hanna was esteemed some trader but Charles Frank of the Pelicans has been old David looking sick. The New Orleans magnate performed to see a feat than buying one player for \$300 and by a series of trades, turning him into a whole team, and \$5,200 cash to boot. Then he got the player back for nothing and sold him for the original \$300.
Jim Lafitte, the catcher, a brother of Ed Lafitte, former Tiger twirler, is the player. Frank bought Lafitte from Memphis for \$300, waiver price. Lafitte died in 1910, but next year

he was traded to Chattanooga for First Baseman "Doc" Johnson and \$100.
"Doc" went to Cleveland in trade for Miller, Butler, Angermeyer and Pitcher Nick Johnson. The team named showed himself a wonder, and the Naps have just bought back the big southpaw for a stated price of \$10,000, actually for \$5,000. Catcher Yantz, Hendrix, Brenner, a pitcher, and Jakey Axt, besides three pitchers set to be delivered.
Up to date this is all that Frank has received for Jim Lafitte except that he got Jim back again. From Chattanooga, Lafitte drifted out of the league and finally turned up a free agent. In the spring of 1912 Frank signed him for nothing—and later sold him for \$300.

SNODGRASS GETS BIG INCREASE BUT NOT FOR LOSING WORLD PENNANT

LOS ANGELES, Jan. 23.—Fred Snodgrass, center fielder of the New York Nationals, whose heart of a fly ball in the deciding game of the world's series last fall was a large factor in losing the pennant for his team, has again signed a contract to play with Manager McGraw.

PHILLIES WILL TRAIN AT SOUTHERN PINES, N. C.

PHILADELPHIA, Jan. 23.—The Philadelphia National League baseball club will train at Southern Pines, N. C. The squad will leave here February 24, the same day the Philadelphia Americans depart for San Antonio, Texas.

INDOOR GAME TONIGHT

The Holy Name-Robinson game tonight at the V. M. C. A. promises to see for a long time. The Holy Name team has won five straight games and if the Robinsons lose tonight the other three teams will be tied for second place. Fowler has been groomed for the twirling place for the corner boys and promises some good stuff. Barnes will be in his accustomed place for the Catholics.

CHALLENGES ISSUED

"Kid" Harrison, has issued a challenge for a 16-round fight anywhere, any place, any time, with Billie King. Jack Daily also challenges and 125-pounder in the United States and is willing to post a \$100 forfeit.

COMMISSION ANNOUNCES NEW RULING

CINCINNATI, Jan. 23.—The national baseball commission issued today a notice to major league clubs, putting an interpretation on that part of the National agreement relative to the release of drafted players. It says that when a major club desires to release a drafted player on whom it has secured interleague waivers, it must notify only the secretary of the national association, the president of the league from which the player was drafted and the national commission. If the player is claimed by the club from which he was drafted on any other club in the national association, the secretary of that association will notify the club which drafted the player, the league from which he was drafted and the commission within 10 days after he has received notice, providing it is after February 1. This is five days after the time national association clubs are permitted to file claims for drafted major league players. If no national association club claims the player, then the releasing club may do with him what it deems best. A major league club is required to enter into contract with its drafted players.

When a national association club claims the player a check for him must be forthcoming to the national association within five days and this will be forwarded through proper channels to the releasing club.

M'GRAW HAS HOPES OF STAR IN DEMAREE

NEW YORK, Jan. 23.—Of the nine young pitchers to go south with the Giants in February, McGraw believes he has a real find in Demaree, the star of the Southern league, who made his debut in the majors last fall by shutting out Boston in one of the best pitched games of the year.

Demaree is a player of considerable experience, though his activities have been confined to the minors. He has been at the pitching business for seven or eight years and is far from a spring chicken.

"The one thing that I like about Demaree," said McGraw, "is his wonderful control. I was so interested in that part of his work on the day that he beat Boston that I did not get a good line on his stuff. He ought to make us a valuable man. Any pitcher who is cool and has control can win."

WELLS AGREES TO FIGHT M'CARTY IN NEW YORK

LONDON, Jan. 23.—Sporting Life announces that Bombardier Wells, the heavy-weight champion of England, has agreed to box Luther McCarty, the new white heavy-weight champion of America, in New York City about the middle of February.

FATHER OF JOE RIVERS DIES OF TUBERCULOSIS

LOS ANGELES, Jan. 23.—Andrew Thayer, father of Joe Rivers, the light-weight pugilist, died today of pulmonary tuberculosis. The young fighter reached his father's bedside a few hours before the end after breaking several ring dates in the east.

BAILING NELSON AND FAY KING ARE MARRIED

CHICAGO, Jan. 23.—Battling Nelson, the prizefighter, and Miss Fay King were married here today.

M'LEAN SIGNS UP

CINCINNATI, Jan. 23.—John (Lary) McLean, the erstwhile Cincinnati catcher, signed a contract here today with the St. Louis National league team for next year.

WILL USE PARI-MUTUELS

BALTIMORE, Md., Jan. 23.—The racing commission of Harford county has determined to put into effect the pari-mutuel system of betting, which was adopted by the Baltimore county racing commission. A resolution in favor of the pari-mutuel system was passed some time ago, said Mr. Fahey of the commission. "The resolution did more than put the members of the commission on record as favoring the pari-mutuel system—it was a resolution to adopt the system after 1912." The decision opens the way to the adoption of the system at all race tracks in the state.

PLANS FOR "BRESNAHAN DAY"

ST. LOUIS, Mo., Jan. 23.—St. Louis friends of Roger Bresnahan, exposed leader of the Cardinals, are planning a big celebration when he appears in St. Louis for the first time with the Cubs. Fans are taking up subscriptions to give Roger something he will remember in the way of a present, probably a diamond. There will be bands and flowers and Roger will learn over again that the majority of the St. Louis fandom still consider him a great ball player.

WEAVER NAMES OWN TERMS

CHICAGO, Jan. 23.—President Charles Comiskey of the White Sox has allowed Buck Weaver, his young shortstop, to name his own terms for his 1912 contract. Comiskey asked him to name a figure without any suggestion by the club owners as to the amount. Weaver named a reasonable figure and his terms were accepted. Comiskey is considering using those tactics with all players who indicate an intention to be fair in the amount.

MONEY CANNOT LURE HIM BACK TO GAME

ARTHUR "TILLIE" SCHUBER, the speedy utility infielder of the New York Giants, upon whom Manager McGraw was banking to strengthen the infield the coming year by giving him a regular position. But the handsome "Tillie" has sent in his contract, accompanied by a formal declaration that he will never again don the spiked shoes in big league ball. One of the stories circulated as to the reason for Schubers' quitting declares that he is disgusted with the "dirty notes" which were showered upon him by girl fans in every town on the National League circuit.

JOHNSON CAN'T MAKE WEIGHT FOR WELTERWEIGHT SCRAP AND QUILTS

SAN FRANCISCO, Jan. 23.—There will be no 6-round bout tomorrow night between Ernie Clark of Los Angeles, amateur welter weight champion of the Pacific coast and Archie Johnson, younger son of Gov. Hiram Johnson. When Johnson weighed in today at the Olympic club, the beam balanced at 145 pounds, three pounds over the welterweight limit. In refusing to waive the difference Johnson himself seemed sincerely disappointed and anxious to go on. He had trained faithfully and stepped strong and clean.

M'INTYRE SIGNS TO PLAY WITH THE REDS

CHICAGO, Jan. 23.—Harry McIntyre, a former member of the Chicago American league baseball club, will go south with the Cincinnati National league club on its spring training trip. He and Manager Joe Tinker came to terms tonight. Tinker stipulated, however, that McIntyre must show he is in good condition before he is placed on the payroll regularly. Manager Callahan of the local American league club, announced tonight that he probably would use Harry Lord, the old third baseman, in the outfield this year.

COACHING PROBLEM SOURCE OF WORRY TO J. HARVARDS

CAMBRIDGE, Mass., Jan. 23.—Harvard undergraduates are uneasy over the coaching problem in several sports. While it is not likely that any coaches are to be lost, three men have not been reengaged, and there is a desire at other universities to obtain their services. Percy D. Haughton's contract has expired and nothing has yet been done to retain him for the eleven. Frank Sexton, the base ball coach, is in the same position, and Alfred Shrubbs, whose coaching gave Harvard the victory on the cross-country run, has not been reengaged. In addition, James Wray's contract as coach for the crew expires in a year, and no new steps have been taken looking to its renewal. Harvard is at the top of the wave in these sports and the undergraduates and alumni wonder why nothing is done to retain the men who have made the Crimson in these respects. Various reasons are given for the delay in the contract with Haughton, and probably all are wide of the mark, but it is believed that Shrubbs and Sexton are not satisfied with the payment for their services. Wray has made no complaints.

NINE NATIONALITIES IN THIS LINEUP

Having nothing better to do, the members of the Winter league spend part of their time in evolving imaginary teams. An old fan the other day worked out the following combination, which involves nine nationalities and should, moreover, be able to give a good account of itself on the ball field: Konetsky, Bohemian, first base; LaJole, Frenchman, second base; Wagner, German, short stop; Moriarity, Irish, third base; Mareans, Cuban, left field; Bodie, Italian, center field; Murray, Scotch, right field; Kling, Hebrew, catcher; Bender, Kidian, pitcher.

Live Dope From Ball Camps in Big Leagues

By J. ED GRILLO.

WASHINGTON, Jan. 23.—It is hard to get a ball player to confess that he is a "dope" addict, but the fact is that a great many of the big league players are. You see, the dope is a speeder fellow, getting on his feet in a few minutes after a long night's sleep. He is a lot of good talent and will instruct him to take a little more next season. "I am going to be the first to get off first base and be the first to be hit by a home run," says the player. "I am going to be the first to be hit by a home run," says the player. "I am going to be the first to be hit by a home run," says the player.

Griff has received a letter from a fellow player who is taking a good deal of time in making rapid progress, and he is the one who reports he expects to be able to have mastered the language and enough to make himself understood.

CRIPPLE CREEK MINES

CRESSION SHAFT NOW DOWN TO 1,300 LEVEL

CRIPPLE CREEK, Jan. 23.—The sinking of the CreSSION shaft to the 1,300 level which is about 1,300 feet deep has been completed and a crosscut to the main ore body has been well started. It is understood. A winze has been sunk from the twelfth level on the ore.

It is said that above the twelfth level some million dollars worth of ore is in sight and that it will require about three years to stop it out.

Richard Roelofs, of this city, is general manager of the property. He has put in some innovations in the operation of the mine which has so far partially reduced the cost of making the mine in the district, the cost of production per ton being lower than that of any other mine in the camp. It is said. Only modern methods are employed at the mine.

On a surface block near the house, leases have been obtained a few values at grass roots and this ore has about been extracted.

GRAB SAMPLES FROM NEW VEIN GIVE \$920 TO TON

CRIPPLE CREEK, Jan. 23.—The big ore shoot opened a few days ago by the CreSSION shaft in the Vindicator company's ground at a depth of about 900 feet, is proving to be one of the richest discoveries made in the district for many months.

The shoot continues to hold a width of from five to eight feet and seems likely to be certain to maintain a splendid average commercial width as development proceeds. Tonnage values on assay tests are remarkably high.

Twelve grab samples, taken from one broken across the entire width of the shoot, returned 48 ounces in gold, or an average of \$920 to the ton. Selected samples from high grade quartz seams give fabulous values.

Barnard & Co., who a few weeks ago made a good strike in the old Home Run mine, on the south slope of Squaw mountain, in a shaft, are breaking a two-car shipment that will be sent out in a short time. The ore assays from \$47 to \$95 to the ton. The locality had long been abandoned.

MARY M'KINNEY OPENS ORE ON THE NINTH LEVEL

CRIPPLE CREEK, Jan. 23.—Good ore is being removed from the ninth and eighth levels of the main shaft of the Mary McKinney mine, according to a high official of that company. On the ninth level which is 900 feet deep the ore has just been encountered after drifting a distance of 200 feet west and north of the shaft. It was at this point, according to the informant, that the ore body was expected.

The present production by the company all ore coming from the main shoot, amounts to a car a day of rock which will settle at about \$35 a ton.

There are five sets of leases working in different parts of the mine and two of these are shipping regularly, one being Mr. Smith, who has a lease on the Howard shaft in the town of Anacosta.

It is believed that the water has receded to a point about 30 feet below the bottom of the present shaft but it will be some months before it will have gone down a hundred feet so as to permit the sinking of another lift.

The annual stockholders meeting will be held at the office of the company in Colorado Springs February 10, at which time directors will be elected. The annual reports will be submitted to the shareholders then. The reports will show a large increase in the amount of ore sent out from the mine for the year just closed than the preceding year. The dividends have amounted to the full amount of the profits made each quarter.

It will be declared, advance information has it, that the mine is in the very best condition and that only on a few occasions previous in its history, has it looked better as far as being put on a producing basis.

The Mary McKinney mine was one of the first to be benefited by the opening of the main water course in the headwaters of the Roosevelt tunnel and immediately the McKinney property was devastated. The main vein was found to be richer and the ore in a larger quantity as depth was reached.

NEW YORK MARKET

NEW YORK, Jan. 23.—Weakness of Steel was the conspicuous feature of today's stock market. Pressure was directed steadily against the stock, and its loss of more than 2 points was perhaps the principal factor in the unsettlement of the whole list. The selling movement on Steel, Reading and the Harbinger stocks and standing investment securities and specialties sold down with the speculative leaders. A spirited rally late in the day lifted prices considerably above the low point.

The sharp upturn last before the close yesterday, following announcement of Turkey's acceptance of the peace proposals, aroused hopes of bull traders that the upward movement would receive further impetus today. But the course of the market indicated that the announcement had been discounted. Resignation of the Turkish cabinet in consequence of its acceptance of the peace proposals, was a further unsettling influence.

Pressure against Steel was associated with the revelations made in the government's dissolution of the partnership of the admission of a former president concerning an international rail road. Harbinger shares were depressed by indications of serious obstacles in the way of carrying out the dissolution of the partnership.

The weakness of the general market seemed to radiate from these issues, the technical position of the market having been weakened by the late short covering on the previous two days.

Offerings of \$15,000,000 convertible 4 1/2 per cent St. Paul bonds caused a break in both the stock and the bonds. The stock broke 1 1/2 and the outstandings 1/2 points.

Bonds were irregular, with a lower trend. Distillers' made up the recent loss. Total sales, par value \$2,755,000.

United States bonds were unchanged on call.

The selling movement on Steel, Reading and the Harbinger stocks and standing investment securities and specialties sold down with the speculative leaders. A spirited rally late in the day lifted prices considerably above the low point.

The sharp upturn last before the close yesterday, following announcement of Turkey's acceptance of the peace proposals, aroused hopes of bull traders that the upward movement would receive further impetus today. But the course of the market indicated that the announcement had been discounted. Resignation of the Turkish cabinet in consequence of its acceptance of the peace proposals, was a further unsettling influence.

Pressure against Steel was associated with the revelations made in the government's dissolution of the partnership of the admission of a former president concerning an international rail road. Harbinger shares were depressed by indications of serious obstacles in the way of carrying out the dissolution of the partnership.

The weakness of the general market seemed to radiate from these issues, the technical position of the market having been weakened by the late short covering on the previous two days.

Offerings of \$15,000,000 convertible 4 1/2 per cent St. Paul bonds caused a break in both the stock and the bonds. The stock broke 1 1/2 and the outstandings 1/2 points.

Bonds were irregular, with a lower trend. Distillers' made up the recent loss. Total sales, par value \$2,755,000.

United States bonds were unchanged on call.

NEW YORK, Jan. 23.—Weakness of Steel was the conspicuous feature of today's stock market. Pressure was directed steadily against the stock, and its loss of more than 2 points was perhaps the principal factor in the unsettlement of the whole list. The selling movement on Steel, Reading and the Harbinger stocks and standing investment securities and specialties sold down with the speculative leaders. A spirited rally late in the day lifted prices considerably above the low point.

CHICAGO MARKET

CHICAGO, Jan. 23.—Wheat, corn and oats declined on the board of trade today.

Wheat experienced a moment of firmness early on steady Liverpool cables, based on reported drought in India, but thereafter ruled under yesterday in sympathy with the cash market. This speculative trade also lacked the support of corn strength, on which it has depended somewhat lately. Argentine was loading freely for export. Spot markets throughout the country were reported dull and weak. May declined 1/2 cent.

General rains reported in Argentina sent the local corn market down 1/2 cent. The Argentine market was of importance to this than to the domestic rainfall, which probably will retard the movement from the farms. The spot market was dull and weak. Although one concern reported 100,000 bushels sold for export.

Corn was dull and the tone a reflection of corn. May dropping 1/2 cent not for the day. Shipping call strong.

Provisions were dull and the fluctuations were narrow. The hog was easy on the larger hog run, closing prices being 2 1/2 to 3 under yesterday.

The Haskin Letter

THE REPUBLIC OF CHINA
YUAN SHIH KAI
By FREDERIC J. HASKIN.

(Continued From Page Eight.)

When the revolution broke out on October 10, 1911, Yuan Shih Kai had been in obscurity three years. He did not stir in behalf of the revolt, nor did he lift a hand to support the beleaguered throne. The rebels were afraid to ask him to become one of them, and the regent, Prince Chun, felt that in restoring Yuan to power he would be taking an adder to his own bosom. But there was no one else in all of China who could meet the crisis. Four days after the storm broke at Wuhan, Yuan Shih Kai was appointed regent of the Hui-Kuang provinces, and refused again, accepting only after the Manchu court sent General Yin Ching to plead with him personally. In another month he was in the city of Peking, called there to be premier of the empire with unlimited authority. He made a dramatic entrance, flanked by outsiders armed with bayonets, he himself wearing the imperial yellow jacket, a garment which gives the wearer absolute power of life and death over all who come before him, and one which even the prince regent did not wear when he received Yuan at the royal palace.

From that moment Yuan Shih Kai has been the ruler of China. He quickly reached an understanding with the national assembly, a new legislative body which didn't legislate, thanks to the Manchus, the members of which sympathized with the revolution. Within a month he brought about the "resignation" of Prince Chun, the regent who had dismissed him three short years before. Although his compromise cabinet went to pieces, his trained army in the Yangtze valley kept the rebel forces at bay. In the meantime the revolution spread to other parts of the country, and he convinced the Manchus that only the abdication of the emperor would save them all from ruin. At the same time he carried on a long peace conference with the rebels.

Made Insurgent President.

On January 1 the revolutionists made Dr. Sun Yat Sen president of the insurgent government. Yuan Shih Kai's peace envoy, Tang Shao Yi, reported after his conference with Dr. Sun that in the face of the public. On February 12 came the abdication of Emperor Pu Yi. Five years old, Yuan Shih Kai was given sole power to treat with the rebels. Sun Yat Sen offered to resign if Yuan would agree to a republic and accept the presidency. Yuan was inaugurated in Peking March 10, last year, just five months after the Manchus recalled him from disgrace. He has successfully withstood fierce internal strife since then and doubtless will continue to rule for many a year.

In a recent number of the China Press, marking the first anniversary of the revolution, he reads for a peaceful and united China, and concludes:

"Might this be accomplished it would be my most ardent wish to bid adieu to the field of political activity and return to those of my rural home, there to emulate Washington in personal attention to the cultivation of my acres, supremely happy in the fulfillment of a life-time's heart-felt desire."

Still, there are those who say Yuan Shih Kai would be king. Only Yuan Shih Kai knows. Should a king come to China out of all this turmoil it will be he.

TOMORROW—THE REPUBLIC OF CHINA—IX. General Li Yuan-hung.

WASHINGTON, Jan. 23.—Cotton gained to January 18 amounted to 18,000 bales, including 7,500 round bales, and 70,000 bales of sea island. The census bureau announced this morning.
